Dear Chris,

It is our goal to provide each individual with a comfortable apartment home in an enjoyable environment. At the same time, we strive to uphold the highest standards and are committed to outstanding service and excellent quality.

We are thrilled to be able to offer the Valet Waste trash service, which has spoiled our valuable residents since we added this service!

The residents on the third floor seem to be some of the happiest people, knowing they do not have to lug down three flights of stairs heavy, smelly and sometimes drippy trash bags and then place these bags in their car for the drive to the compactor!

In addition, our breezeways and walkways are cleaner, the compactor areas seem to stay cleaner and that is making our maintenance team happier.

So all in all, adding Valet Waste to our list of services to our residents of a 508 unit apartment community has been a “win-win”.

Tony Diaz, the District Manager for our area has been very valuable to us in setting this service up. Explaining the dos and don'ts to our customers and overseeing the nightly pick ups.

The staff with Valet Waste responsible for, Alexan Place at South Square is the best and we are happy to have them as part of our team!

Respectfully,  
Cyndi Perry  
Property Manager  
Alexan Place at South Square
